## POSITION DESCRIPTION

### **Environmental Protection Specialist. GS-0028-13**

Position Number:

Organizational Code:

Organizational Location:

Primary Purpose:

Environmental justice incorporates the concept that people of all races, cultures, incomes, and educational levels should receive fair treatment with respect to the development and enforcement of environmental laws, regulations and policies. The work pertains to the impact of environmental risks, programs, regulations, and legislation on socio-economically disadvantaged communities. Responsibilities include carrying out programs, policies, and activities that substantially affect human health or the environment in a manner that ensures that they do not have the effect of excluding communities and populations from participation in, denying persons the benefits of, or subjecting persons to discrimination under, such programs, policies, and activities because of their race, national origin, or income. This ensures that all citizens are protected from disproportionate exposure to environmental hazards. Environmental justice concerns are coordinated through this program to more effectively address the needs of affected communities.

Performs program administration work or environmental liaison work, in order to accomplish the assigned environmental management and protection duties.

Develops, initiates, implements, and maintains environmental justice programs.

#### **Environmental Liaison 90%**

Performs liaison work with individuals in a variety of organizations on legislative proposals, regulations, policies, program issues, resources, etc. Assists government entities in development of legislative changes. Performs liaison work by interacting with individuals in a variety of organizations on legislative proposals, regulations, policies, program issues, resources, etc. Performs liaison work by assisting government entities in the coordination of legislative changes where the regulatory framework is well-established and defined. Uses standard/conventional procedures and techniques to perform liaison work such as reviewing documents, analyzing evidence, writing, etc.). Performs liaison work by assisting local/state/tribal/national entities on matters pertaining to the development, establishment and continuance of program activities. Performs oversight of well-established programs. Performs liaison work by providing oversight and coordinating activities with local/state/tribal/national organizations. Performs liaison work by providing programmatic oversight and coordination of local/state/tribal/national programs. Assists in developing policy guidance to implement the various provisions of environmental standards. Performs liaison work by evaluating the feasibility and probable effects of local/state/tribal/national proposals. Prepares position issue/briefing papers to strive toward consensus among the various organizations/stakeholders. Performs liaison work by facilitating resolution of funding, program and regulatory issues. Serves as a troubleshooter. Duties may

include the preparation of planning and environmental documents (environmental impact statements, environmental assessments, executive summaries, public involvement documents, and working papers) and participating in public meetings.

**Grants/Cooperative Agreements/Interagency Agreements 10%**

Exercises management responsibilities for grant, cooperative agreement, and/or interagency agreement activities related to the initiation, administration, and/or close out of grants, cooperative agreements, and/or interagency agreements (IAGs), including responsibility for monitoring performance. Exercises management responsibilities in the negotiation, implementation, and/or ongoing management of EJ grants/cooperative agreements/IAGs. Provides technical assistance to applicants/recipients regarding well-established grants assistance programs. Exercises technical responsibility for grants/cooperative agreements/IAGs within stable, well-established programs, and for the more complex grants/agreements/IAGs. Provides assistance and information to senior staff members regarding grants, cooperative agreements and/or interagency agreements (IAGs) as needed.

Serves as the source of program leadership, information and advice within the Regional office and with States, Tribes, and local and grassroots community members concerning EJ grant requirements and distribution and use of federal funds. Serves as the primary staff contact point and liaison for the States, Tribes, and local organizations regarding EPA-authorized or funded EJ programs. Along with the other OEJ Regional Grant coordinators, advises EPA OEJ on current issues impacting the Regional grant program, on funding policies and procedures, and provides projections of future funding needs based on research and knowledge of Regional problems and priorities.

**Factor 1-8 1550 Points**

**Knowledge Required by the Position**

Mastery of program principles, concepts, practices, methods, and techniques to apply new developments and theories to major problems not susceptible to treatment by accepted methods. Expert knowledge of Federal, State, and local laws and regulations, documentation and reporting requirements, and lawmaking or rule-making processes sufficient to make decisions or recommendations significantly changing, interpreting, or expanding important agency/national policies and programs.

**Factor 2-4 450 Points**

**Supervisory Controls**

The supervisor sets the overall assignment objectives, program emphasis, and resources available. The environmental protection specialist and supervisor, in consultation, develop the deadlines, projects, and work to be done.

The environmental protection specialist, having developed expertise in a particular program or functional area ( e.g., municipal solid waste, land disposal, environmental information

management) has continuing responsibility for independently planning and carrying out important environmental protection programs or projects; determining the approach to be taken and the methods to be used; resolving most of the conflicts that arise; coordinating the work with others as necessary; and interpreting policy in terms of established objectives. The specialist keeps the supervisor informed of progress, potentially controversial matters, and problems with far-reaching implications. Completed work is reviewed for conformance to overall requirements, compatibility with other work, and effectiveness in meeting objectives.

#### **Factor 3-4 450 Points**

##### **Guidelines**

Administrative policies and precedents, laws, regional or area directives, agency regulations, and scientific and technical references are usually applicable, but are stated in general terms. For example, operating guidance provides a broad overview of program goals and strategies as well as priorities, but does not detail how the identified priorities and activities will be accomplished. The environmental protection specialist uses initiative and resourcefulness in deviating from, refining, or extending traditional methods and practices, or in developing and recommending new or substantially modified methods, criteria, or policies.

#### **Factor 4-5 325 Points**

##### **Complexity**

The work includes a wide variety of duties requiring many different and unrelated processes and methods applied to a broad range of activities involving a number of facilities, sites, programs, etc. (e.g., planning and conducting/coordinating inspections to identify and evaluate violations in a variety of complex industrial and commercial establishments throughout a multistate area) or intensive analysis and problem solving (as a recognized expert) in a program or functional area.

Decisions regarding what needs to be done depend on assessment of very complex, diverse circumstances that involve major areas of uncertainty in approach, methodology, or interpretation resulting from such elements as continuing program changes, technological developments, new or unconventional methods, unique or controversial aspects of environmental protection or conflicting interests or ideas (as between operational or mission requirements and environmental requirements or between State needs and Federal needs).

The work requires devising new methods and techniques to produce effective results or implement advances in such areas as pollution prevention, resource allocation, risk assessment, or quality assurance: establishing criteria for administering or evaluating environmental programs; or developing policy guidance and procedural material for use by operating personnel.

#### **Factor 5-4 225 Points**

##### **Scope and Effect**

The purpose of the work is to plan and carry out a variety of important project or program activities. The work involves establishing criteria (e.g., developing operating guidance or

procedural manuals for major agency activities); formulating projects; assessing program effectiveness; investigating or analyzing a variety of unusual conditions or questions; or providing advisory or oversight services to regional and operating personnel, State and local officials, industry representatives, and others on specific functions or programs. Assignments typically involve problems that are particularly difficult, widespread, or persistent; or that are systemic in nature involving major systems or processes. The work directly influences the effectiveness and acceptability of total environmental protection systems and/or programs affecting a wide range of agency activities, major activities of industrial or commercial concerns, or the operation of other agencies.

#### **Factor 5-4 225 Points**

##### **Scope and Effect**

The purpose of the work is to plan and carry out a variety of important project or program activities. The work involves establishing criteria ( e g., developing operating guidance or procedural manuals for major agency activities); formulating projects; assessing program effectiveness; investigating or analyzing a variety of unusual conditions or questions; or providing advisory or oversight services to regional and operating personnel, State and local officials, industry representatives, and others on specific functions or programs. Assignments typically involve problems that are particularly difficult, widespread, or persistent; or that are systemic in nature involving major systems or processes. The work directly influences the effectiveness and acceptability of total environmental protection systems and/or programs affecting a wide range of agency activities, major activities of industrial or commercial concerns, or the operation of other agencies.

#### **Factor 6-3 60 Points**

##### **Personal Contacts**

The persons contacted include persons from outside the employing agency in a moderately unstructured setting. Typical of contacts at this level are those with persons in their capacities as contractors, inspectors, attorneys, company executives, community leaders, elected officials, or representatives of Federal or State regulatory agencies, professional organizations, the news media, or organized or ad hoc public action groups. This level may also include contacts with the head of the employing agency or program officials several managerial levels removed from the employee when such contacts occur on an ad-hoc basis.

#### **Factor 7-3 120 Points**

##### **Purpose of Contacts**

The purpose of contacts is to influence, motivate, or persuade persons or groups who are typically skeptical, resistant, or uncooperative, and who must be approached skillfully to obtain the desired effect ( e.g., negotiating compliance requirements or timetables; influencing or persuading agencies, companies to agree to use new or improved technologies about which there may be conflicting opinions; representing the office/agency, as a member of an institutional committee, on controversial licensing/permitting requests; working with Indian tribal leaders to

modify plans when conflicting values must be resolved or accommodated; challenging the results of surveys or inspections by regulatory agencies; justifying the feasibility and desirability of plans or proposals that significantly affect office and/or agency practices, such as corrective action plans or funding requirements for environmental compliance and restoration projects).

**Factor 8-1 5 Points**

**Physical Demands**

The work is primarily sedentary, although some physical effort may be required, e.g., walking, standing, carrying light items such as manuals or briefcases, or driving or traveling by motor vehicle.

**Factor 9-1 5 Points**

**Work Environment**

The work environment involves everyday risks or discomforts that require normal safety precautions typical of such places as offices, training rooms, and libraries. The work area is adequately lighted, heated, and ventilated. There may be occasional exposure to moderate risks or discomforts in storage areas or hazardous waste sites.

**Other Significant Facts:**

This position is likely to require more than one week of travel a month.
